WIRELESS SENSOR BAR Wii ATOMIC

WIRELESS SENSOR BAR Wii ATOMIC

Atomic presents the first wireless sensor bar for Nintendo Wii™ consoles not requiring any external batteries.

Thanks to the embedded Ni-Mh battery, the sensor bar can be easily charged by plugging the charging wire into any free USB port (on computers, Wii™ console, USb chargers…).

What's more, if needed, it is possible to leave the charging wire connected and use the sensor bar in wired mode, removing the need of charging it.

With On/Off switch for energy saving.

Made in an elegant black colour to perfectly match most TV sets in the market and the new Kuro black edition of the Nintendo Wii™ console.

Technical Specs:
- embedded battery: rechargeable, Ni-Mh 2.4 V 500 mAh
- charging time: 4.5 h
- lifetime after full charge: more than 6.5 h
- wireless operating range: 4 -8 m.

Available in colour: black.

PRODUCT NAME: **WIRELESS SENSOR BAR Wii ATOMIC**

ITEM CODE: **WIIA.62**

PRODUCT BARCODE: **8022805116627**

COUNTRY OF ORIGIN: **CHINA**
